PROFESSIONAL SUMMARY

Java Full Stack Developer with expertise in **Java, Spring Boot, Microservices**, React.js, **Oracle SQL**, and **Hibernate**. Experienced in building scalable backend systems, database-driven applications, and responsive frontend solutions. Skilled in backend architecture, exception handling, authentication, and software development lifecycle practices.

WORK EXPERIENCES

Java Developer | Internship May 2026 - Present
Upskill Campus *Remote*

- Developed **two enterprise-grade applications** using **Core Java**, implementing **10+ business functionalities** across banking and HR domains.
- Built **five modules** including authentication, transaction processing, employee management, attendance tracking, and leave management.
- Utilized **OOP, Collections Framework**, file handling, and exception handling to create **scalable and maintainable applications**.

Technologies / Skills Used : Core Java, OOP, Collections Framework

PROJECTS

Food Delivery API | 🌐 Github Jun 2026 - Present

- Developed** over 10 **REST API endpoints** for user, restaurant, menu, and order management with **Spring Boot**.
- Designed** a layered architecture and implemented multiple entity relationships, enhancing core business operations.
- Integrated Oracle Database** with **Spring Data JPA** for efficient CRUD operations and transaction management.

Technologies / Tools Used : Java, Spring Boot, Spring Data JPA, REST APIs, Maven, Oracle

Cab Booking Application | 🌐 Github May 2026 - Jun 2026

- Developed** a cab booking platform featuring **ride booking, driver allocation, trip tracking**, and **completion**.
- Implemented** design patterns for dynamic driver matching and ride allocation logic.
- Applied** pessimistic locking and layered architecture for efficient concurrent transaction management.

Technologies / Tools Used : Java, Spring Boot, Spring REST APIs, Spring Data JPA, Hibernate, Oracle DB

Employee Management System | 🌐 Github Apr 2026 - May 2026

- Developed an **Employee Management System** using **Spring MVC** architecture, implementing Controller, Service, and Repository layers.
- Integrated **Spring Data JPA** for efficient database interaction and optimized data persistence operations.
- Tested and validated API endpoints with **Postman**, ensuring functional accuracy and consistent response handling.

Technologies / Tools Used : Java, Spring Boot, Spring MVC

SKILLS

Programming Languages :	Java, JavaScript, SQL
Frontend :	HTML, CSS, Bootstrap
Backend :	Spring Framework, Spring Boot, Spring MVC, Spring Data JPA, RESTful APIs, Microservices
Databases :	Oracle Database, MySQL
Tools & Platforms :	Git, GitHub, Postman, Swagger, Maven, Eclipse, VS Code, NPM, AWS Basics
Languages :	English, Hindi
Soft Skills :	Problem Solving, Analytical Thinking, Team Collaboration, Adaptability, Communication, Debugging
AI :	ChatGPT, GitHub Copilot, Prompt Engineering, AI-assisted Debugging, Code Review

EDUCATIONS

Oriental Institute of Science and Technology | Bhopal, Madhya Pradesh, India 2021 - 2025
Bachelor of Technology (B.Tech) – Computer Science Engineering *CGPA : 8.05*

ACHIEVEMENTS

- Solved **200+** Data Structures and Algorithms problems on **CodeChef, HackerRank**, and **GeeksforGeeks**.
- Strengthened analytical and problem-solving skills through competitive programming practice.
